VOL 28 BLOOMSBURG, PA., FRIDAY, SEPTEMBER 15, 1893. NO 29

## COUNCIL PROCEEDINGS.

Regular meeting of Council held Thursday evening, September 7th, with president and all members present.

E. B. Brower appeared and complained that the grade on Penn street had not been made as per argument, when he gave the right of way for the opening of the street, and requested that the town attend to it promptly so that he could place his pavements. It was referred to the Street committee and Town engineer. Mr. Brower also requested that the sewer be extended up the Light Street road far enough in order to have his several houses connected with the sewer. No action was taken upon the latter request.

S. C. Creasy called attention to the resolution adopted some time ago, authorizing the closing up of the ditch near the ice plant. He asked that suitable pipe (terra cotta) be laid down Seventh street as far as Catharine street and thence into the canal. It was referred to the committee on Highways with instruction to report to the Council for further action.

Building permits were granted to W. S. Fleckenstine and Wm. Lemon for houses on Leonard street near the Fair Grounds. Louis Gross for house on East street, C. C. Peacock for house on West Second street, and T. H. Edgar for Rebecca Carmen, house on East Third street.

Robert Buckingham Esq. appeared for Francis Drake, in a bill of $18.33 balance due for Police services for the month of May, June, July and August. The president of the Council had discharged Mr. Drake from police service, but he, (Drake) claimed that the Council and not the president could discharge him, and that he must first have a hearing. The original motion as adopted when Drake was made a policeman, as well as the By-Law pertaining to the subject were read, after which on motion the bill was allowed and order directed to be drawn in payment of services as policeman.

W. E. Sterner requested that the first or original grade of West Fifth street be let stand. No action.

L. E. Waller presented a release signed by James Magee 2nd granting the town a portion of land for the purpose of opening Leonard street, from the line of Fifth to Sixth street. It was agreed that upon a release being filed by McKelvy and Neal for the piece of land between that of James Magee and the Fair Grounds that an ordinance be prepared ordering the extension of Leonard street through said lands as a public highway.

L. E. Waller also presented bill of Globe Electric Light company of $150.39 for lights from March 1st, 1892 to April 29th, 1893, which was referred to committee on Lights.

Complaint was made against J. L. Dillon fencing a lot along the public road leading to Espy, and near the first Canal bridge. The fencing of the lot closes up what was partially used as a road, and makes the road very narrow. It was referred to the Town engineer.

The following ordinance was read:

BE IT ORDAINED &c., That the Bloomsburg Electric Street Railway Company be and is hereby authorized to lay tracks, erect poles and wires, and to extend and operate its road over and upon the centre of the following streets in said town to wit: On Fifth street from Railroad street to Grove street; on Market street from Sixth street to Second street; on Second street from Market to Grove Street, and on Grove street from Second street to Fifth street, together with such switches and sidings as may be convenient and necessary for the accommodation of the traffic from time to time. The privileges hereby granted being subject to the following conditions and regulations, to-wit:

(a) That the said railway shall at all times be used as a passenger railway only.

(b) The Company may adopt a gauge to suit its cars, and may use either a tram or girder rail, or both, but whether tram or girder rails are used, the space between the tracks and two feet on the outside of either rail is to be filled by the said Railway Company with lime stone spawl; the work to be done in such a manner as to make the driving of wagons on or across the tracks of said Railway, at any and all points, and at all times, convenient, safe, and secure, so as to prevent injury to the highway or persons traveling thereon.

(c) That whenever the Town Council shall ordain the paving of any street over which said Electric Railway passes, the said Bloomsburg Electric Street Railway Company shall pave three feet of the road way outside of each rail, and the space between the rails, with the same material with which the rest of the road may hereafter be paved by the Town Authorities.

(d) All the poles used and erected by the said Railway Company in the operation, control and management of their road shall be located under direction of the Committee on Highways and the Town Engineer, and the wires so arranged so as to do the least possible damage to property or person. All poles to be as nearly straight as possible and painted, and the Town to have the right to use the same for fire and police alarm wires, provided that such use in no wise interferes with the use thereof by said Railway Company.

(e) That the cars shall not be run faster than six miles per hour on Main and Market street, and eight miles per hour on other streets, and that a faster rate shall subject the Company, and its employees in charge of such cars, to the same penalties as in the case of fast driving.

(f) That the said Bloomsburg Electric Railway Company shall at all times be subject to the reasonable control of the Town Authorities as to the change of location of tracks, wires and poles, change of street grades, and such other matters as shall be reasonably the subject of municipal control.

SECTION 2. That all the rights granted by this ordinance shall be exercised by the said Railway Company within one and a half years from the passage of this ordinance; and if the said Bloomsburg Electric Street Railway Company shall fail to complete its road ready for reasonable operation within one and a half years from the passage of this ordinance, then and in that case, all the privileges and rights granted herein, shall cease, determine and become void.

After the reading of this ordinance the president stated that he had letters from the mayors of different towns and cities showing that the towns were financially benefitted when granting rights of way, and that a provision or amendment should be made that if the Bloomsburg Electric Railway Company sells or transfers its franchise for money, the Town of Bloomsburg should be benefitted. Messrs. Holmes and Peacock moved the adoption of the Ordinance as read, upon call of vote the motion was adopted.

The president of the Council having upon a former occasion notified Mr. Gorrey that he was removed as chairman of committee on Highways and another appointed in his place; Mr. Gorrey called attention to section XIX of the By-Laws, which reads as follows: "The commissioner of Highways shall be subject at all times in the performance of his duties to the direction of the president of the Council and the committee on Highways". He said he called attention to this because in carrying out his duties, while covering the streets with limestone spawls there arose a misunderstanding between himself and the president; resulting in his being notified of removal. Mr. Gorrey also presented the following report as chairman on committee on Highways: We recommend that lime stone spawls be put on Iron street from Second to First, on Center from Second to Third, that the culvert on road leading to Espy be enlarged, that a 20 inch pipe be laid on West Third street at John Rhem's and the low place in road be filled to grade; that a 20 inch pipe be laid on Seventh street, east of Ice Plant thence along Seventh street to Catharine and that two 20 inch pipes be laid across Catharine and as far as the run is in the street; also recommend that enough teams be employed to haul spawls from Creveling's to cover roadway from Scott township, line to Wm. Gigers.

Messrs. Holmes and Peacock moved its adoption. The president refused to put the motion, because he held that Mr. Gorrey had no authority to report. The maker, Mr. Holmes, then put the motion resulting as follows. Yeas—Peacock, Gorry, Housel and Holmes,—4. Nays—Swentzel, Knorr, Drinker,—3.

M. C. Woodward was elected tax collector for the ensuing year.

Bloomsburg Cornet Band asked permission to hold a dance in Town Hall during Fair week. The request was refused, as a resolution has been adopted against granting the privilege of holding dances at any time.

Work on grading West street was ordered to be commenced Monday.

---

Work has commenced on the new Baptist church at Eagle's Mere. It will be remembered that the one in use some time ago, was destroyed by the cyclone of last year. The new one will be larger than the one destroyed, and will be erected on the old site. T. J. Keeler, of Laporte, will superintend the construction of the building.

## CYCLONE AT WALLER.

On Thursday afternoon the valley north of Waller was visited by one of the most destructive cyclones ever known in that region. The people there always thought the hills would prevent such storms doing any damage but Thursday's storm proves that these everlasting hills do not entirely protect us either.

Thursday was a pretty warm day and towards evening when the clouds and rolling thunder indicated rain the farmers were glad, for the crops have suffered much on account of the dry weather. As the storm came on Mr. J. P. Yorks sat on his porch when looking towards Mr. Russel's, he saw the cyclone begin its work. The cloud was funnel shaped and at the top was black as night. It first took a few trees and then Mr. Russel's house and barn, breaking all their dishes, taking part of the house away, and took the barn clear to the ground breaking it to kindling wood and carrying some of it a half mile or more away. Three boys were in the barn but in some way they escaped, but they can't tell how. One of his horses was killed.

Mrs. Sitler's house was the next one in its way which it moved several feet, broke out all the windows, took part of the roof and most of their clothes, some of which cannot be found. There were three or persons in the house and it threw them all in one corner, but did not injure anyone seriously.

The most damage was done at Mrs. Sarah Hirleman's, where it took out nearly every tree on the place including a nice large orchard, completely demolishing two large sheds, breaking buggies and wagons, tore the roof from the barn besides damaging it a great deal other ways. The house fared better as it escaped with a window and the chimneys gone and a large shade tree on the roof which probably saved it from worse destruction. Mrs. Hirleman, an aged lady, was alone at the time and has seen much of this rough world but was never afraid during a storm. When she saw the sheds and barn go and heard the house crack, she was really frightened. Her son who lives near, hurried to the house and calmed her fear for the rest of them, but it was such a severe shock on her nerves that she almost fainted away. No one received any serious injuries, however, but the loss of property will reach up in the thousands. The path of this storm was narrow and it scarcely went a half mile before it raised.

The work of repairing is going on as rapidly as possible, but the fruit trees are irreparable and so far several articles that were carried away have not been found. Mrs. Sitler and family moved to her son-in-law's Mr. Asa Hess, and Mr. Russel moved in Mr. T. J. Hess' barn

The storm moved in an easterly direction and is reported to have done much damage about Red Rock and towards Wilkesbarre.

## SCHOOL BOARD.

A special meeting of the school board was held Friday evening of last week to consider the question of providing room for the increased attendance. After much discussion it was resolved to furnish an additional room in the High School, and employ another teacher. The committee on buildings and grounds were directed to procure furniture. A number of applications having been received from teachers a vote was taken resulting in the selection of Mary Sheep.

It was further resolved to transfer Miss Ada Rinker to the new room to be furnished, to promote Miss Wilson to the room occupied by Miss Rinker, and place Miss Sheep in charge of the room vacated by Miss Wilson at Fifth street. These changes to be made with the beginning of the new month, Monday, September 25th.

A Tennessee Judge has decided that progressive euchre is gambling. In his charge to the grand jury he said:

"Not only is gambling carried on in regular gambling resorts, but people of high standing and respectability gamble. They may not put down money, but they set an example for others in playing for prizes and rewards. In these progressive euchre games these persons pay for fine pictures or gold-headed canes. Examples are set that are a violation of the law, and it is just as demoralizing as common gambling. A conviction of one man of the higher class is better, as an example, than the conviction of only ordinary people for common gambling."

Somebody else evidently won the gold headed cane.

## A BLOOMSBURG BOY KILLED IN A COLLISON.

Bruce Brown, son of our townsman Ezra Brown who lives on Fourth Street, was killed in a wreck Tuesday of last week, at about five o'clock in the morning near Batesville, Indiana. He had spent about three years in Iowa, and other places in the west, had visited the World's Fair and was on his way home. He sent in advance a saddle and other articles, with a notice that he was on his way home. He became acquainted with a young man at Chicago, and this friend jumped on the train with him, just as they were leaving the station at Chicago. All went pleasantly until the crash came. The collision was made with the World's Fair Big Four Express, No. 12, consisting of ten Wagner sleepers and day coaches, filled with Cincinnati people, returning from the World's Fair and a freight train which left Cincinnati Monday night for Indianopolis. A number of people were injured in the wreck, nine being pinned under the cars, and were cut out, but the only life lost was that of young Brown. His head was crushed, and he was disemboweled, instant death following. His friend escaped, who recognized him, and gave his name and residence. A coroner's inquest was held and the body intered in the Cross-Roads Cemetery at Batesville, Indiana, Tuesday evening. Post Master Cathcart received a message from the coroner reading as follows: "Bruce Brown was killed on Tuesday in the wreck of the Big Four." From this message it was learaed that he was a son of our townsman. Later the father received intelligence from the acquaintance his son had found at Chicago, who gave full particulars of the accident. The body has not yet been brought home. He was 18 years and 8 days of age.

## THE SUNDAY MOVEMENT.

Rev. Mr. Dony of Scranton was in town on Wednesday. He is the gentleman through whose efforts the Sabbath Protection Committee was organized, and he says there was a misconception of the methods under which these committees work. It is not the intention to compel an observance of the Sunday laws by recourse to the courts, but in a kindly manner to educate the people to a proper observance of these laws. In all the time that he has been engaged in the work, there have been no arrests. The strong opposition that was shown against the effort to suppress the sale of Sunday papers was aroused by the understanding that the sales would be stopped by an arrest, if it could not be done otherwise, and the result was that more papers were sold on the last two Sundays than ever before. The efforts of any organization to enforce Sunday laws are certainly commendable, and will receive the hearty support of the local papers, as well as the approval of every good citizen, but their efforts should be directed against evils that are bad in themselves, or that pollute the morals of the community rather than against those things which, while they may be prohibited by ancient laws, still are utterly harmless in themselves.

## THE FREE RIVER BRIDGE.

The subject of the free river bridge is being agitated as the time approaches for September court. The situation is about as follows: The Grand Jury having recommended the building of a free bridge across the river at or near Bloomsburg, the stockholders or those interested in the Catawissa bridge filed exceptions to the report and then later made a tender to sell their bridge to the county, to be used as a free bridge. A committee consisting of A. K. Smith, Madison; A. W. Snyder, Mifflin; H. H. Hulme, Benton; J. W. Hoffman, Scott; James Sponenberg, Berwick; and A. W. Hippensteel, Centre, were appointed to appraise the property and fix a value to be referred to the Grand Jury for action. These viewers met at Catawissa, Saturday of last week and fixed a value of $34,000. What action will be taken in reference to the purchase of the Catawissa bridge remains to be seen when the Grand Jury meets in two weeks. The case of the bridge across the river at Bloomsburg will probably be argued before Judge Savidge, who has acted in the case on previous occasions.

## ACTION ON THE DEATH OF E. R. DRINKER.

At a meeting of the Vestry of St. Paul's church, Bloomsburg, Pa., held at the Rectory on September 11th, 1893, the following action was taken:

Whereas, it has pleased Almighty God in His wise providence, to remove from his earthly labors, Mr. E. R. Drinker, for over thirty years a Vestryman and during most of the time the Senior Warden of this parish, therefore,

*Resolved*: That the Rector and Vestry desire to place upon record their sense of the great loss which the parish has sustained in the death of Mr. Drinker, and their regard for his memory.

He was ever ready to give and to do for the welfare of St. Paul's church. Year after year he has been earnest and unremitting in the work of the Sunday School, as Lay Superintendent, Teacher and Treasurer. During a series of many years he has been a Deputy to the Diocesan Convention and always manifested a great interest in the affairs of the Diocese.

He was a man of marked missionary spirit and a constant contributor to the Missions and Charities or the church in Central Pa. and elsewhere. In this he has left an example worthy of imitation. He has gone to his reward. His memory will be blessed.

*Resolved*: That we solemnly recognize the fact that death has removed within the last six months both of the Wardens of this parish, reminding us who remain that we must work while the day lasts, for surely the night cometh when no man can work.

*Resolved*: That this action be entered on the Minutes of the Vestry and that a copy thereof be sent to the family of our deceased friend.

WM. C. LEVERETT, Rector.

*Attest*:
PAUL E. WIRT, Secy.

## SCHOOL PRIZES AT THE FAIR.

In the Premium List for 1893, the Columbia County Agricultural society offers some special prizes for work exhibited by pupils of the public schools in the county, the Normal School and the High Schools excepted.

The prizes are as follows:

For the best map of the State of Pennsylvania, the choice of the following books. "The Song of Liberty," "Marching to Victory," "The Boys of '76," "Building the Nation," "Redeeming the Republic." These are standard works, worth $3.00 per volume.

This offer is made upon the following conditions:

1. All exhibits must be forwarded to the Secretary by October 1st, 1893, who will place them before a committee of awards, composed of impartial persons having no connection with any of the competing schools.

2. Each school must furnish not less than three specimens to be drawn on paper 19 by 21 inches and entirely free from erasures.

3. Maps are to be without county lines and only principal cities, rivers and mountains to be shown.

4. Each map must be entirely the work of the exhibitor and so certified by the teacher of the school offering it or the premium will be forfeited.

5. Each map must set forth the name of the exhibitor, the name of the district and the Post Office address of the maker from which it comes, in the lower left hand corner. Also the name of the premium book desired in case the contestant is successful.

6. Drawing will be examined and the successful paper placed upon exhibition at the Fair.

The announcement of the name of the successful exhibitor and the presentation of the Premium Book will be made upon the Fair Ground from the judges, stand at 12 o'clock noon, on Wednesday, October 11th, 1893, upon which day the pupils of the public schools are invited to attend the Fair at a reduced price, provided they be accompanied by a teacher.

SPECIAL SWEEP STAKE PRIZE.

In addition to the prizes offered as above, the Association offers as a special prize, to the school to which shall be awarded the distinction of producing the best three maps, one of Webster's International Dictionaries valued at $12.00.

---

The Convention of State Sportsman's Association will be held at Harrisburg, Tuesday, September 26. A very beautiful program and invitations have been issued. It consists of an 80 page, morocco covered book, containing announcement, program, constitution and by-laws, and profusely scattered with advertisements of the enterprising firms of Harrisburg.

## BRIEF MENTION.

### About People You Know.

Hon. C. R. Buckalew and wife returned from Chicago on Tuesday.

Miss Eva Rupert and Miss Mary Miller have been at the World's Fair

Miss Helen Harman of Bridgeport, Pa. is visiting her Bloomsburg relatives.

William Krickbaum and F. F. Vanderslice have gone to the World's Fair.

W. S. Rishton has sold his horse, carriage, harness, saddles and entire driving outfit to C. C. Peacock.

Mr. and Mrs. William Webb have been visiting friends in Philadelphia during the past week.

Rev. P. A. Heilman went to Chicago on Monday to receive medical treatment for his throat.

J. G. Swank, democratic candidate for County Commissioner was in town Monday.

Myron Geddes, principal of the public schools of Northumberland, is the manager of the foot ball team of that borough.

Hervey Furman, son of C. S. Furman, went to Washington on Monday, where he has a position in a jewelry store.

Surgeon General Grier U. S. N. and son, of Washington, D. C., with Mrs. Dill of Baltimore, are visiting the family of Rev. I. N. Patterson.

Mrs. Franklin Taylor is confined to her bed with liver trouble. Tuesday morning she was in a severe chill but soon recovered from it.

John Wolf has had the front fence removed and the ground nicely terraced at his home on Centre street. It makes a great improvement.

Samuel H. Harman will give a large party at the Exchange Hotel this Friday evening. He recently arrived at the age of twenty one, and celebrates the event in this pleasant manner.

On Monday morning quite a number left here to go to the World's Fair, taking the D. L. & W. Among them were Mrs. W. H. Snyder, Mrs. W. S. Fleckenstine, Joseph Fleckenstine, C. R. Doak, A. C. Logan, Mrs. J. L. Kline.

Frank Aurand who has been spending a week at home, went to Scranton on Tuesday, to attend the races, and from there he returned to his duties on the Pennsylvania Railroad. His many friends were glad to see him here.

D. F. Weiss was kicked by a horse Friday of last week. He received a very severe bruise upon the right arm between the hand and wrist. No bones were broken, but the bruise is of such a nature that the arm swelled very much and necessitated application of liniments.

Meylert Bruner Esq. of Albuquerque, New Mexico, spent several days in town during the past week, with his cousin J. G. Wells. He formerly resided in Muncy, and went over there on Monday to visit his parents. He will visit the World's Fair, and then go to St. Paul, where he will be married, and return with his bride to New Mexico.

Mr. and Mrs. Clarence Keller of Philadelphia spent last week at Orangeville and vicinity. They returned to their home on Monday. Mr. Keller is a son of John Keller of Orangeville, and learned the printer's trade in the COLUMBIAN office fifteen years ago. He is looking well and his many friends will be glad to know that he is prospering. He and his wife spent Sunday in town with his sister, Mrs. Creveling.

Dr. Andrew Graydon whose card appears in this issue, graduated from Jefferson Medical College, Philadelphia in 1877 and since that time has been practicing medicine in that city. He has been a visiting physician for diseases of women and children at St. Mary's Hospital, and for the diseases of women at the University Hospital for a number of years. Though not professing to be a specialist in electrical treatment, he owns a complete set of electrical apparatus for the treatment of such cases as require its application. Nervous diseases, rheumatism, headache and the like are often benefitted by it. Dr. Graydon's office is at his residence, the house of Prof. Waller on Market below Fifth street.

# AGONY LONG DRAWN OUT

## Thirty-Three More Speeches Announced on Silver.

WASHINGTON, Sep. 11.—The repeal bill will continue to be the absorbing topic of interest before Congress this week. Notice of speeches to come have already been given, sufficient to fill in the greater part of the week and others are known to be in course of preparation, so that in the absence of an agreement of some kind there is no reason to believe that a vote on the bill can be reached this week.

Speculation is rife as to the length of the debate now progressing. Thirty-three Senators are said to have arranged to speak on the subject beside which ten or a dozen more may address the Senate before the close of the debate. Even if a compromise shall ultimately be agreed upon, the final vote will not be taken earlier than about the first week in October.

In the present unsettled condition of affairs it is impossible to foretell what will be the programme of the House of Representatives for a week ahead. The fact is no course of action has been laid out by the leaders and they are satisfied to let each session of the body take care of itself. This state of things is likely to continue until either the senate acts upon the repeal bill pending before it or the time comes when the Committees on Appropriations and Ways and Means have some proposed legislation formulated for the consideration of the House.

It is expected that to-day the report of the Committee on Accounts will be called up for discussion. There is in this the material for a debate that shall last several days, for the minority recommend a considerable reduction in the number of committees to which clerks shall be allowed, and further that all clerks except those who are made annual by statute, shall be paid for the session only. It is hardly probable, however, that there will be much of a contest over the matter or that the radical change recommended by the minority will be adopted in the end. Such a course would amount almost to a revolution, for the undeviating tendency of years past has been to increase and not diminish the number of committee clerks and of clerks who are changed from the session to the annual list.

Later in the week if it is possible for the Committee on Election of President and Vice-President and Representatives in Congress, to report the measure to the House, one of the bills providing for the repeal of the Federal election laws, may come up for consideration, but the probabilities are against it.

WASHINGTON, Sep. 12.—An important conference of Democratic Senators was held yesterday. There were present Senators Gorman, Vourhees, Faulkner, Gray and several of the other leaders of the Senate and friends of the administration measure. The results of that meeting will probably manifest themselves in the Senate to-day. The main point to which the Senators are said to have addressed themselves was the possibility of bringing the silver question to a vote. A canvass was made of the names of those who intended speaking on the subject and this disclosed the fact that the limit of legitimate debate would not be exhausted until this week had ended and possibly not until one or two days of the next had been consumed. It was agreed that after that speechmaking would be equivalent to filibustering and that every speech made would be for the certain purpose of consuming time and postponing the day for final action. How to prevent this is the question Senators desirous of securing a vote are seeking to answer. Cloture is impossible, for as one of the members of this conference said, cloture had no more chance of passing the Senate than would a measure for the repudiation of the national debt. The mere attempt, it was argued, would be hailed with delight by those opposing repeal because it would give them an opportunity to talk upon something else and thereby consume more time.

The vote will be reached, if reached at all, by the test of physical endurance and with that end in view the test will be made as soon as possible. Early next week a motion will be made—unless it is made sooner to take effect on a day certain—providing for night sessions and these sessions will be made continuous so that a quorum of the Senate will be required every hour of the twenty-four. In this way, coupled with the powerful influence of the business interests of the country now demanding repeal, the repealers think they can force the silver men to come to terms and consent to the taking of the vote. It looks very much as if this programme would be inaugurated next week.

The probable action of the House in taking up the bill for the repeal of the Federal Election laws also came in for its share of this discussion and various opinions as to the effect of such action by the House were expressed. A division of sentiment as to this policy was manifested. Some of the committee thought it extremely unwise to plunge the House into a bitter partisan discussion just at this time when the Republicans of the Senate were working with the Democrats for the repeal of the law for which purpose the President alone had called the Congress together. Others met this line of argument with the statement that Senators were not to be deterred from doing what they conceived to be their duty in this matter, by any agitation that might arise in the other body, still it was suggested by some that final action might at least be postponed even if no further harm came from it, and nothing would be lost by the Democrats from refraining in this matter until after the repeal of the Sherman act had become an accomplished fact. On the other hand there were Senators who urged it was imperative for the good of the party that this bill should be taken up now and disposed of. It was pointed out that the campaign in Virginia had begun and Congress had been in session now for six weeks without a single pledge made to the people having been redeemed. It was important that something should be done that would have a quieting effect in Virginia and it was said that this pledge was one upon which the party was united and there was no reason why the bill should not be passed speedily without an acrimonious debate. The general opinion is that nothing will be put in the way of the House doing as it thinks best in acting upon the bill which will be reported to-morrow.

### Quincy Ill.

WASHINGTON, Sep. 18.—Josiah Quincy, whose incumbency of the office of Assistant Secretary of State will end with the month of September, is suffering from a severe cold at his home in Boston.

### WORKERS IN 1893.

**The Amalgamated Association Trying to Arrange With Manufacturers.**

PITTSBURG, Sep. 12.—The executive committee of the Amalgamated Association has issued a circular to all of the subordinate lodges in the country asking for power to reconvene the conference committee of the association for the purpose of effecting a settlement with the iron and steel manufacturers. The circular has by this time reached every lodge in the country, several having already voted upon the question. If the conference committees of workers and manufacturers can again be brought together, it is thought that the differences which prevented 70 per cent. of the members of the Amalgamated Association from resuming work, and also entailing heavy losses to the manufacturers, can be adjusted. The result of the vote will be made known on the 15th inst. It is said by those in position to know that the Amalgamated Association will agree to accept the 10 per cent. reduction in grade and bar mills demanded by the manufacturers at the July conference and which caused the disagreement.

### THE GUILTY DISPATCHER.

**Disappearance of the Man Who Caused the Celebrity Wreck.**

FORT WAYNE, Ind., Sep. 11.—Fred O'Connor, the train despatcher, whose forgetfulness caused the wreck on the Fort Wayne road in which a dozen lives were lost, has not been seen since. A few minutes before he left the city, he was overcome with grief and walked from his rooms on Calhoun street to the Rich hotel. In the office his strength failed and he fell in a faint. He laid the blame of the accident upon himself and sent a messenger to the coroner of Cook county requesting him to release all of the men held for the accident as all of them were entirely innocent. He was sent away by his friends because he could no longer endure the terrible strain on his nervous system. Although ordered to Chicago to appear before a Coroner's jury, he was compelled to forego the ordeal of such a trip, as his friends realized he could never withstand the shock.

### HOME RULE.

**An Intimation That Gladstone Will Appeal to the Country.**

LONDON, Sep. 11.—The Queen is known to have awaited with unwonted anxiety Mr. Gladstone's decision as to his course after the rejection of the bill by the Lords. The royal idea is that Mr. Gladstone should appeal at once to the country, and the determination which is understood to have been expressed by Mr. Gladstone in his special despatch to hold on indefinitely will not suit her Majesty at all.

According to constitutional precedents the Queen certainly had some reason to expect that, after the overwhelming majority of Lords, spiritual and temporal, had condemned him, the aged Premier would resign or ask the electors again to justify his policy. It is surmised that Mr. Gladstone intimated in the despatch carried to Balmoral to-day the readiness of the Cabinet to submit to the Queen's prerogative to dismiss her present Ministers.

### THE AMERICAN DEFENDER.

**Saturday's Victory Places the Vigilant Far in the Lead.**

NEW YORK, Sep. 11.—Although a rough weather test is still needed to decide which yacht is most worthy to defend the cup against the English Valkyrie, yet there is little doubt that the Vigilant, from her fine performances of Saturday and Thursday, will be the boat selected by the committee. By Saturday's work she clearly demonstrated even to the most enthusiastic advocates of rival yachts that she is superior to them sailing through placid seas with light winds. She vanquished the Jubilee over a course of thirty miles, reaching and running, by 4 minutes and 22 seconds; she defeated the Pilgrim by 8 minutes and 9 seconds, and she left the keel New York syndicate yacht Colonia 12 minutes and 24 seconds astern.

### ANARCHY IN SPAIN.

**Rioters Sack Buildings in a Prominent City.**

MADRID, Sep. 11.—A riot broke out in Santander on Saturday during a fire in a populous quarter. A mob forcibly entered the municipal buildings and, after destroying the furniture, threw everything out of the windows. The residences of the Mayor and the leading Councillor were treated in the same way. The mob was finally dispersed by troops. The riot was ostensibly caused by a deficiency of water, but it is only another evidence of the wave of anarchism passing over Spain.

### Iron Hall.

INDIANAPOLIS, Ind., Sep. 11.—Receiver Failey was allowed $10,000 on July 13 for services in the Iron Hall receivership, the order being the last act of Judge Taylor, deceased. The order has been kept quiet until now. Failey reports $721,926.68 on hand and says his attorneys advised him not to make a final report until a final decree is ordered.

### Horrible Accident at Sea.

SAN FRANCISCO, Sep. 11.—The steamer Empress of China, of the Canadian Pacific Railway Company's line, brings the news of a boiler explosion on the steamship Wago Maru on Aug. 24, while the latter was on the way to Anamizu. The vessel sank and eighty passengers are missing.

### A Fighters' Farewell.

LONDON, Sep. 13.—A farewell dinner was given at St. James Hall last evening to Charley Mitchell, the English pugilist who is about to sail for America to fight Corbett and Jack McAuliffe, the American lightweight champion, who will accompany him.

### Noted Agriculturists.

**Southern Sufferers.**

COLUMBIA, S. C., Sep. 8.—Gov. Tillman has issued an appeal to the people of the United States for help for the people of the section devastated by the recent cyclone. The starving and destitute people number over 20,000.

### Col. Hughes' Case.

TOPEKA, Kas., Sep. 11.—It is understood here the verdict of the court martial which tried Colonel Hughes is "guilty," and that he is dishonorably discharged from the military of the State.

### A Murderous Blow.

SPRINGFIELD, Mass., Sep. 11.—Richard Wheeler, a Hatfield negro, was struck on the head with a club by Jared Remington and killed. The club, two inches thick, was splintered.

### BETTER PROTECTION.

**A Bill for Keeping the Life Saving Stations Open Ten Months.**

WASHINGTON, Sep. 12.—Mr. Hazen, of Rhode Island, has introduced into the Senate a very short bill that will go a very long way in remedying the disastrous results that have followed the short-sighted policy of economy in regard to the Life Saving service. This bill amends the laws governing the Life Saving stations by providing that hereafter the stations on the sea and gulf at which crews are employed shall be manned and the stations opened for active service on the first day of August and so continued until the first day of June succeeding, and upon the lake coasts from the close of navigation except such stations as in the discretion of the Secretary of the Treasury are not necessary to be manned during the full period specified, and the crews shall reside at the stations during such periods. Under this bill the term of the service of the life-saving crews will be lengthened one month each at the beginning and end of the season.

### NEW BEDFORD MILL TROUBLES.

**Some Employees Cut More Than the Agreed Rate.**

NEW BEDFORD, Mass., Sep. 12.—There is much excitement among weavers in this city in regard to the cut down in the several cotton mills. Nearly all the mills are running, but it is claimed that in some of them, while the spinners received only the agreed upon 10 per cent. cut, the weavers, doffers and back boys' cut will average much more, in some instances the cut of these operatives being as high as 15 or 20 per cent. The exception to this is at the Howland, Hoch and New Bedford manufacturing company's mills, where the operatives say that the cut is but 10 per cent. straight for all. At the Acushnet mill the back boys and doffers inaugurated a strike, and it would take but little to precipitate one among the help outside the spinners in all the mills except the Howland, Hoch and New Bedford manufacturing companies. The weavers claim the reason the cut of the spinners is but 10 per cent. is because their union is well organized and powerful.

### Increase of Cholera.

WASHINGTON, Sep. 12.—The report of the United States Consul at Nantes, France, to the Marine Hospital service, shows that cholera is on the increase there to an alarming extent. For the week ending August 26, there were 73 cases, and 30 deaths, not including those treated at the various hospitals. The previous week showed but a few more than 50 cases and but 18 deaths. This morning, also vague reports of cholera from Rio Janeiro reach the Bureau, but so far there has been no confirmation of the rumor.

### Unprofitable Conspiracy.

NEW HAVEN, Conn., Sep. 12.—Allan Seaman, of Perry street, a wholesale provision dealer, has transferred a portion of his business, valued at $5,000, to Sperry & Barnes, wholesale pork packers of this city, to remunerate them for losses they sustained by a conspiracy in which Seaman was the chief. Seaman's method was to buy stock from two dishonest shipping clerks in Sperry & Barnes' establishment. The clerks stole the stock and sold it to him at reduced prices. Seaman is prominent in church and society circles.

### Boys and Girls Strike.

BRIDGEPORT, Conn., Sep. 12.—About 85 employes of the finishing department of the Bridgeport Brass company went on a strike yesterday, most of them being girls and youths. They have been working three days a week and the company made the proposition that they accept a slight cut and be given six days work each week. They earned about $1.12 a day and by the cut would make $1 per day. As there are no orders the department will remain closed unless the employes accept.

### Elmira Reformatory.

ALBANY, Sep. 12.—Gov. Flower on the 1st inst. wrote the managers of the Elmira Reformatory suggesting the suspension of the general superintendent during the coming investigation. The Board of Managers replied to the Governor, objecting to the suspension, but the latter has just written a second letter repeating his original suggestion.

### Train Robbers Caught.

ST. LOUIS, Sep. 12.—A special to the Chronicle from Oswego, Kan., says that the three men who robbed a 'Frisco train at Mount Valley, Kan., and killed Express Messenger Chapman last week, have been captured and are now in jail at Arkansas City, Kan. All of the prisoners confess their guilt, and one admits having killed Messenger Chapman.

### Senator Murphy.

SARATOGA, N. Y., Sep. 12.—United States Senator Edward Murphy, jr., arrived here yesterday from Washington. His family will leave their North Broadway cottage to-morrow and return to their home in Troy.

### Crompton Mills Resume.

PROVIDENCE, R. I., Sep. 12.—The mills of the Crompton company at Crompton, which have been closed since Aug. 7, started yesterday.

### Started Up.

BOSTON, Sep. 12.—The Walker & Pratt foundry at Watertown has started after a shut down of about two months.

## The Game Laws.

SEASONS OF THE YEAR WHEN THE SPORTSMEN CAN WASTE POWDER.

There are many unfamiliar with the game laws of this State, and we therefore invite them to clip out the following and paste it in their hats for future reference :

Elks and deer, October 1 to December 15, but owing to an error it is illegal to have a deer in possesion after November 30 ; the killing of fawns when in spotted coat, chasing the elks or deer with hounds, and the killing of deer when in the water is prohibited. Squirrels, September 1 to January 1 ; hares or rabbits, November 1 to January 1 ; ferrits prohibited. Wild turkeys, October 15 to January 1. Woodcock, July 4 to January 1. Quail, November 1 to December 15. Ruffed and pincated grouse, October 1 to January 1. Rail or reed birds, September 1 to December 1. Wild fowl, September 1 to May 1. Pigeon nestings protected within a radius of one-fourth mile from roosting or breeding place, and disturbance in any manner while nesting, and snaring or netting for the purpose of killing during the nesting season prohibited. Sunday hunting and shooting and torchlights prohibited.

Following are the dates for fishing: salmon or grilse, March 1 to August 15. Speckled trout, April 15 to July 15 ; under five inches in length protected. Lake trout, January 1 to October 1. Black, green, yellow, willow, rock, Lake Erie and green bass, and wall-eyed pike or Susquehanna salmon, June 1 to February 1. Pike and pickeral, June 1 to February 1. Bass less than six inches in length protected. German carp, September 1 to May 1. Artificially stocked streams protected for three years after stocking.

Following are the Pike county laws: Deer, October 1 to December 1. Squirrels, September 1 to December 15. Wood or summer ducks, October 1 to January 1. Woodcocks, July 4 to December 15. Quails, October 15 to December 1. Ruffed grouse, September 15 to December 1. Ruffed grouse, September 15 to December 15. Salmon and speckled trout, May 1 to August 1. Pike and pickerel, June 1 to February 15.

### Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever ; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars : free.

### The Blue Laws.

The Blue Laws of Connecticut were so called because they were printed on blue tinged paper.

These were some of them :—

"No one shall be a free man or have a vote, unless he is converted and a member of one of the churches allowed in the Dominion."

"No dissenter from the essential worship of this Dominion shall be allowed to give a vote for electing magistrates or any officer."

"No food or lodging shall be offered to a heretic."

"No one shall cross the river on the Sabbath but an authorized clergyman."

"No one shall travel, cook victuals, make beds, sweep houses, cut hair or shave on the Sabbath day."

"No one shall kiss his or her children on the Sabbath or feasting days."

"The Sabbath day shall begin at sunset Saturday."

"Whoever wears clothes trimmed with gold, silver, or bone lace above one shilling a yard, shall be presented to the grand jurors, and the selectmen shall tax the estate £300."

"Whoever brings cards or dice into the Dominion shall be fined £5."

"No one shall eat mince pies, dance, play cards, or play any instrument of music except the drum, trumpet, or jewsharp."

"No man shall court a maid in person or by letter, without obtaining the consent of the parents ; £5 penalty for the first offence, £10 for the second, and for the third, imprisonment during the pleasure of the court."

## Women as Inventors.

LITTLE CHILDREN WHO HAVE MADE MONEY BY THEIR PATENT RIGHTS.

Thus far no woman's invention has been greatly profitable to its originator. The most successful patent granted to a person of gentler sex up to date is the ice-cream freezer, now universally in use. It was the idea of Mrs. Nancy M. Johnson, who died in Washington three years ago at the advanced age of 95. She was the widow of a professor in the Smithsonian Institution. Rights on the freezer were taken out in 1843. Up to that time ice cream had always been made by stirring it with a spoon. Mrs. Johnson might have secured a great fortune for the device, but she sold it for $1,500. Another Washington woman, Mrs. A. H. Woodall, not long ago invented an attachment to the type writing machine, by which the "carriage" is made to glide back automatically to the beginning of the line as quickly as the last line is finished, thus saving much time. She is said to have sold it to a typewriter company, which thought it worth buying, but has not used it.

Children have taken out a number of profitable patents. The youngest inventor on record is Donald Murray Murphy, of St. John, Canada, who at 6 years of age obtained from the United States exclusive rights in a sounding toy. Mabel Howard of Washington, at 11 years, invented an ingenious game for her invalid brother, and got a patent for it. Arthur G. Smith, of Richwoods, Ill., at 12 years, invented and patented a rowing apparatus. When only 17 years old, Benjamin F. Hamilton, of Boston, took out patents on a number of devices for electric and elevated railways. A dispute over a contract, which he desired to escape from, on the ground of his minority, made an interesting case not long ago before the Commissioner of Patents. Samuel Ker, 18 years old, has patented a self-feeding pen. Other boys have invented useful devices for electric signaling, telephoning and cigarette making. George C. Pyle, of Wilmington, Del., at the age of 18, patented a machine which turns out sixty horseshoes a minute. He sold it for a sum sufficient to lift the mortgage off his father's home. In fact, it was this purpose which inspired him to undertake the task of invention.

Sufferers from dyspepsia have only themselves to blame if they fail to test the wonderful curative qualities of Ayer's Sarsaparilla. In purifying the blood, this medicine strengthens every organ of the body, and even the most abused stomach is soon restored to healty action.

### New Swindle on Farmers.

"GILT-EDGED BUTTER COMPOUND," WHICH IS NOTHING MORE THAN PEPSIN.

A new kind of swindle has excited the attention of the department of agriculture. Certain ingenious persons are manufacturing for sale to farmers, a product which they call "gilt edged butter compound," or by other names equally attractive. It is alleged that by the use of this substance the agriculturist can double the quantity of butter obtained from a single cow or from any number of animals. The process as described by the Washington *Star* is very simple. You take a pint of fresh milk and as much of the "compound" as you can heap on a silver dime. These you put into a churn together with one pound of soft butter, and you agitate the mixture for a short time, at the end of which it is found to be transformed into two pounds of good butter. At the same time it is pretty evident that the amount of butter fat is not increased by this method, and in the resulting two pounds there can only be as much of it as was contained in the original one pound, plus the small quantity derived from the pint of milk. This fact is quite vividly shown by chemical analysis. Whereas good butter holds only sixteen per cent. of water, the stuff produced by the "gilt-edged compound" contains fifty per cent. of water. Nevertheless the latter looks very much like genuine butter, though considerably softer. The "gilt-edged compound" is simply pepsin. Mixed with butter it produces an emulsion, which enables the butter to take up an equal weight of milk without alterating its appearance materially. Any other digestive ferment, such as rennet will accomplish the same result. The "compound" is sold at the rate of $2.50 for a two ounce box, the actual value being about three cents. One disadvantage of its use is that butter manufactured in way described quickly spoils. It is an adulterated food product and should be prohibited by law.

### Don't You Know

That to have perfect health you must have pure blood, and the best way to have pure blood is to take Hood's Sarsaparilla, the best blood purifier and strength builder. It expels all taint of scrofula, salt rheum and all other humors, and at the same time builds up the whole system and gives nerve strength.

Hood's Pills may be had by mail for 25c. of C. I. Hood & Co., Lowell, Mass.

## Flowers and Vines.

The Villa Castello is about three miles from Florence, and built in a gently undulating country. The flower garden is its interesting feature, and it is one of the most beautiful in Italy. It covers a large area, several acres, and it is placed at the back and north of the palace, on rising ground. It is protected at the north by an architectural terrace, above which is a grove of ilex and cypress trees. A large fountain marks the centre of the parterre, with circular seats and statuary surrounding it. In the centre of the terrace, at the north, is a grotto and fountain very remarkable and dignified in character. An orangerie forms a part of the east wall. The arrangement of the flower beds is as simple as possible, and the effect of the whole is very full in regard to the plantation, and very remarkable as to bloom, for so large a garden. One is conscious only of the principal paths, so well concealed is the necessary network of small ones by which the gardener reaches his plants. The arrangement of vines on the high stucco wall is an exceedingly good one—the lower part of it covered with climbing roses, which are fastened to it with slender bamboo sticks attached to the wall, and the upper part for grape-vines, which, having grown up to a point above the roses, are made to grow laterally in lines one above the other, forming a sort of frieze. The grove of Castello is reached by two stairways, one at either end of the terrace. It is quite unpretentious in character, its one embellishment being a fountain, now very much overgrown with moss.—From "Italian Gardens," by Charles A. Platt, in *Harper's Magazine* for August.

Ayer's Sarsaparilla; highly concentrated, is the most economical blood purifier that can be used.

### This Farmer Has Wings.

Some poet has said that the farmers are not great men for sentiment, and argues that one could hardly expect anything of the kind from men who put their trust in bullocks and beeves. It is quite reasonable to presume, if this is true, that farmers might be a trifle deficient in humor, but a visit to the Agricultural Building at the World's Fair will suffice to convince the visitor that this poet is in error. There is nothing funny about a corn pavilion, and statistics of last year's wheat crop do not appeal to the average mind as containing the essence of true humor. Neither the tremolo of the hay tedder nor the racket of the mowing machine are fraught with mirth, and the contemplation of a gigantic reaper and binder as a usual thing fails to bring the ready laugh. Neverless there is something funny in the Agricultural Building, and it is a joke in bronze at that.

The visitor will find in the south wing of the building, surrounded by agricultural machinery, the bronze figure of a Dutch farmer. He stands on the top of a ragged stump holding high in one hand an ear of corn. But it is not so much his ridiculous attitude, or the playful rotundity, the artist has given his stomach, nor his fat, jovial face and caricatured feet. All these are hilarious enough in detail, and the ensemble would make an undertaker smile. But it is the wings with which the artist has finished off the figure which are the fetching quality of the statue. No one can realize the fact that those wings really belong to the Dutchman without feeling deep in his heart that he is glad that the sculptor lived.—*Chicago Tribune.*

### A Leader.

Since its first introduction, Electric Bitters has gained rapidly in popular favor, until now it is clearly in the lead among pure medicinal tonics and alteratives—containing nothing which permits its use as a beverage or intoxicant, it is recognized as the best and purest medicine for all ailments of Stomach, Liver or Kidneys.—It will cure Sick Headache, Indigestion, Constipation, and drive Malaria from the system. Satisfaction guaranteed with each bottle or the money will be refunded. Price only 50c. per bottle. Sold by C. A. Kleim.

### An Editor in a Fix.

An exchange gets off the following, which may have happened: An editor of an exchange is now a haunted beast, roaming the land, and with no place to lay his head, all on account of an error made by his "make up." That person in some way got a marriage notice and a grocer's local mixed, the outcome of which read as follows : "Mr. John Jones and Miss Mollie Smith were united in the holy bonds of molasses at 40 cents by the quart or barrel. The bride was attired in codfish and mackeral, while the groom looked splendid in home-made soap, at 20 cents per quart. Mr. Jones is an estimated saur kraut, and the bride has a new invoice of hams at 15 cents per pound. Rev. Brown officiating." His make up skipped.

### Potato of Quartz.

UNEARTHED IN NORTH CAROLINA AND SENT NORTH FOR EXAMINATION.

A quartz potato is the very latest discovery among the curious productions of nature. The find was made by Peter Haskiel, of Adams county, N. C. Mr. Haskiel was at work in a cutting on the Richmond & Danville railroad, where blasting operations were in progress. The fuse had been set, and the men had retired to a place of safety when a heavy piece of rock fell near his feet. The lump showed a fissure on one side, the crack extending nearly to the center. It was pried open with a crowbar, when from a pocket within rolled what looked as if it had once been a white potato, which by the action of nature had been turned into solid quartz. The specimen was given to a native mineralogist, who out of curiosity split it in half.

One half of this curious freak of nature was sent to Lapidist James W. Beath, at 111 South Tenth street, Philadelphia, for examination. The half now in the possession of Mr. Beath bears a striking resemblance to an Irish potato. It has seven well-defined eyes, and in general outline, size and coloring would deceive almost any cook who merley looked at it without feeling its weight. Mr. Beath says it is the first specimen of the kind he ever saw and that it is evidently formed of pure quartz.

In Paint the best is the cheapest. Strictly Pure White Lead is best; properly applied it will not scale, chip, chalk, or rub off; it firmly adheres to the wood and forms a permanent base for repainting. Paints which peel or scale have to be removed by scraping or burning before satisfactory repainting can be done. When buying it is important to obtain

Strictly Pure White Lead

properly made. Time has proven that white lead made by the "Old Dutch" process of slow corrosion possesses qualities that cannot be obtained by any other method of manufacture. This process consumes four to six months time, and produces the brand that has given White Lead its character as the standard paint.

John T. Lewis & Bros.

is the standard brand of strictly pure Lead made by the "Old Dutch" process. You get the best in buying it. You can produce any desired color by tinting this brand of white lead with National Lead Co.'s Pure White Lead Tinting Colors.

## PERSONAL AND LITERARY.

—Justice Blatchford's wealth was partly inherited. His father once lost $50,000, it is related, having set a valise containing that amount down in Fulton street, New York, to buy some peanuts and gone off forgetting it. But he was so wealthy that the loss did not hurt him much.

—Sir Leonard Tilley completed two years ago his second term as lieutenant-governor of New Brunswick and he is still serving because partisan politics there is very bitter and the government has avoided the danger of exciting the animosity of one faction by failing to select his successor.

—Mrs. Frederika Macdonald, a well-known English writer and lecturer, and Mrs. Annie Besant, who holds Mme. Blavatsky's scepter, engaged in a public disputation in London recently about the merits of theosophy and Buddhism. The debate resulted in a drawn battle, but was most interesting to the audience, as each disputant made an animated argument to support her thesis.

—Pierre Loti, who is about to start out on a tour to Egypt and Palestine, appears to be a great favorite with some of the feminine readers of his stories. In a lecture which she lately delivered about the novelist, Mme. Thenard said that "at receptions they overwhelmed him with adulation, and had he partaken of all the ices and wines they pressed on him he would have died ere this."

—It is the distinction of Rev. Mr. Blodgett, of Greenwich, Mass., that during his long pastorate of the village church there he has buried more people than the town contains. He has officiated at 624 funerals, while the entire population of Greenwich at the present time is only about 570. Mr. Blodgett is seventy-eight years old, and for half a century he has been the town's only clergyman.

—There were great rejoicings among the pupils of M. Benjamin Constant upon his election to a membership in the French academy. A reception was given him at one studio by the men there, and a triumphal arch of roses and laurels was erected by his girl pupils in his studio in the Passage des Panoramas. Besides this, the staircase to the street was lined with young girls, each of whom held aloft a long spray of flowers or a palm branch as the painter descended, forming a floral canopy over his head.

—The prince of Wales not long ago was one of a large house-party, his host being a very well-known peer. After dinner, the royal guest, the host, and the other male visitors repaired to the billard-room. On a table at the side were two or three boxes of cigars, and the prince was helping himself to one, when an ambitious millionaire approached him, and taking from his pocket a cigar-case, held it out to the prince, saying: "I think, sir, you will find these better." "Mr. ——," replied the prince, "if a man's dinner is good enough for me, his cigars are good enough for me." The millionaire was unexpectedly called away to town next morning on business.

But in summer we pay just to get it put there;
And rave if it fails? Well, now, rather.

—Not a Good Plan.—One Rich Father—"I think it is the best plan for your son to marry my daughter, and in that way we can keep the money in the family." The Other Rich Father—"My dear friend, you don't know my son."—Detroit Free Press.

—An Experiment—"I got tired of riding home in crowded cars, so I bought a bicycle." "So you are going to ride home on that hereafter?" "Well, I don't know. I got it only yesterday, and last night I rode home in an ambulance."—Chicago Record.

—Young Wife—"This talk about man being so impatient when a woman is getting ready to go anywhere is all nonsense." Friend—"Doesn't your husband complain at all?" Young Wife—"No indeed. Why last evening I couldn't find my gloves, and I had a long hunt for half-a-dozen other things; and yet when I was finally dressed and went down stairs to my husband, there he was by the fire reading and smoking as calmly as if I wasn't half an hour late. Friend—"Well, I declare! Where were you going?" Young Wife—"To prayer-meeting."—Buffalo Commercial.

## DEMOCRATIC SOCIETIES OF PENNSYLVANIA.

The attention of the Democracy of the state is called to the General Assembly of the Democratic Societies of Pennsylvania, to be held at Allentown, Lehigh county, September 26th,

This will be the most important event of the campaign, and speakers of national fame, with the most distinguished leaders of the party in the state, will be present. The general Assembly will be largely attended by regularly appointed deputies. Many clubs will attend with their own bands There will be a number of mass meetings of a state character during and after the General Assembly. It will be in effect a state mass meeting and general democratic jubilee, and all democrats in every part of the Commonwealth, are respectfully invited to attend and participate with the deputies and the Democracy of old Lehigh.

Chairman J. Marshall Wright desires to call particular attention of county chairmen and party workers to the following order of the last Democratic State Convention:

"That in accordance with the recommendation of the National Democratic Committee, the Democratic State, County and City Committees be advised and directed to further by every means in their power the organization of regular Democratic Societies in every district and the union of such societies in the Democratic Society of the State, and the National Association of Democratic Clubs."

### Federal Election Laws.

The Tucker bill for the repeal of the Federal election laws reported to the House Thursday will be debated at once. This action was determined upon at the meeting of the committee on election of President and Vice President and Representatives in Congress Tuesday morning. The session was comparatively brief, and was devoted largely to a consideration of the report prepared by Mr. Tucker in support of his bill.

The majority adopted the report and would have voted to present it to the House the next day had not the Republican members, under the lead of Messrs. Johnson, of North Dakota, and Curtis, of New York, asked to be allowed to present their views simultaneously with those of the majority. Thereupon it was voted to report the bill Thursday, at which time the two reports were filed.

Mr. Tucker says that in the course of the debate there will be some interesting information vouchsafed the House respecting the method of John I. Davenport, of New York, and the cost of enforcing the laws. Exact figures, he says, cannot be secured from the Treasury Department for the reason that many payments have been made to Davenport without vouchers; but it is estimated that the payments on account of supervisors and deputy marshals have amounted to from $1,000,000 to $1,500,000 at each Congressional election since the laws were passed.

The Republicans will oppose the passage of the Tucker bill to the utmost of their power. For this debate at least a month, according to one of the prominent members of the minority, will be required, and no arrangement that reduces this period of time will be accepted by them.

## WASHINGTON LETTER

WASHINGTON, Sept. 11, 1893.

At last a real, genuine, bona fide White-House baby! No wonder her arrival in Washington, Saturday afternoon, created a sensation, causing Congress and its doings to be for the time forgotten or ignored. It was an historical event that will be read of with interest by yet unborn generations, as the age at which most men become President makes it improbable that it will become a frequent occurrence. This is the first in the history of the White House, although there have been three other births in the White House, two of them grand children of President Tyler—both now living in Washington—and the other to the wife of Col. Fred Grant. Mother and daughter are in good condition and both doing well, and although President Cleveland is attending to business as usual it is probable that his thoughts often involuntarily wander to his wife and baby, however important the other matters may be which he has under consideration. The Clevelands have had two very unusual honors in connection with the White House. No other President was ever married in the White House and no other President's wife ever gave birth to a child in the White House. Long life and great happiness to Baby Ruth's sister, the White House baby!

There is to be no compromise in the Senatorial fight over silver. It is to be tought to a finish, President Cleveland having declared that he would accept nothing but the repeal of the purchasing clause of the Sherman silver law without condition. This is a great disappointment to those who have hoped that some satisfactory arrangement would be made that would get the solid support of the democratic Senators and bring the rank and file of the party closer together than they have been since the extra session met. The end of the debate is not yet in sight, although some Senators believe that a vote can be reached in two weeks. That is the doubtful thing. The vote is no longer doubtful. When it is taken the Vorhees bill will be passed, but when that will be depends upon the endurance and disposition of the Senators opposed to it.

A very important step was taken by President Cleveland when, after a full discussion of the matter by the cabinet, he decided that this Government should proceed, without waiting for Congress to take further action, to rigidly enforce the Geary anti Chinese law. This step would have been taken before, but it was deemed advisable, under the circumstances, to wait a reasonable time to see if Congress desired to take any action on the law and also to give the New Chinese minister an opportunity to submit any message he may have been charged with by his Government, looking toward the negotiation of a new and more satisfactory treaty. Further than the introduction of a bill by Senator Dolph appropriating $500,000 to carry out the provision of the law, Congress has taken no notice of it and the Chinese minister has done nothing, therefore the necessary orders have been issued by the Treasury department to put the law to work. The amount of money available is small, but Congress is in session. No trouble is expected with China although precautions have been taken to have a sufficient naval force in Chinese waters to protect American interests.

The World's Fair souvenir half-dollars are coming into the Treasury, for redemption in such quantities that Senator Morgan has, at the request of Secretary Carlisle, introduced a bill to repeal so much of the law of 1879 as makes it compulsory upon the Secretary of the Treasury to redeem subsidiary silver coin in Treasury notes, which is the same as redeeming them in gold. The Chicago banks with which the greater portion of the Columbian half-dollars were pledged to secure advances made to the Exposition managers are now sending these coins to Washington for redemption, it having been found impossible to dispose of them at the expected premium. Secretary Carlisle thinks they would just as well be put in general circulation as piled up in the Treasury; hence the bill to stop their redemption.

Democratic members of the House Ways and Means committee will not be sorry when the public tariff hearings close, on Wednesday of this week. They have produced no information that was not already possessed by the committee, and have only served to keep the committee from more important work—the preparation of the reform tariff bill. As soon as the hearings close, the democrats of the committee will push the work without further interruption until it is completed, as they do not propose to allow ex-Czar Reed and his republican colleagues on the committe to delay matters by their "funny business."

Treasury receipts have shown a very encouraging increase within the last few days, indicating that the country is very rapidly recovering from its financial fright.

Senator Teller's sensational attack upon the press of the country, in the Senate on Saturday, is being talked about everywhere, and the general impression, without regard to political opinion, is that he made a serious mistake. There are, unfortunately, dishonest newspapers, but they are comparatively few in number.

## PROHIBITION CONVENTION.

The prohibitionists of Columbia county met in the Court House, Thursday of last week. It was the largest convention ever held by the prohibitionists of this county. Early in the morning the Grand Street Temperance Band of Berwick began to render music, that attracted the attention of many, and no doubt added to the number in attendance. The convenvention was called to order by County Chairman Isaiah Bower, after which S. W. Dickson of Berwick offered prayer. Very appropriate remarks were made by Chairman Bower in which he portraved the want and suffering brought about by the traffic and indulgence in intoxicating liquor; he declared the convention ready for business. S. W. Dickson was elected chairman and A. W. Pitts secretary of the convention. State Chairman Patton was introduced and gave a nice talk about the growth of the party and showed that although the growth was slow it was nevertheless gaining in numbers at the same time that the old parties had lost thousands of their numbers. As he was to speak at the afternoon meeting he closed by making a plea to all voters to join the party and assist in the destruction of the traffic that causes the majority of the crime, pauperism and poverty of this country. The convention then proceeded to the nomination of candidates for the county offices. For Prothonotary and Clerk of the Courts, Edwin John of Millville; Register and Recorder, Joseph Fleckenstine, of Orange; Treasurer, L. P. Kline of Mt. Pleasant; Commissioners, Aaron Smith of Hemlock and Wm. Stevens of Berwick; District Attorney, S. W. Dickson of Berwick; Auditors, Richard Smith, of Benton and G. A Potter of Millville. A Standing Committee of one or more in each township or district represented was elected and S. W. Dickson was elected County Chairman, W. A. Pitts, Secretary and M. P. Lutz Treasurer. Convention then adjourned to meet at half-past one p. m. At the appointed time the Convention was called to order by Chairman Dickson and opened with prayer by Rev. J. Womelsdorf of Bloomsburg. The matter of finance was the first order of business and in a very few minutes sixty nine dollars was pledged for defraying the necessary expenses of the work in the county. State Chairman Patton then took the floor and for about an hour produced evidence that the only way to obtain prohibition was through a new party pledged to the work. His statements that neither of the old parties could pass a prohibitory law and live as a party was very explicit and he challenged any member of either of the old parties to contradict it. After the speech of Patton, Isaiah Bower of Berwick, and Millville were elected as members of an executive committee to co operate with the county officers in carrying on the work of the campaign. On motion of M. P. Lutz, a vote of thanks was given the county papers that kindly published the call for this Convention and gave notice of it in their local columns. Also to the County Commissioners for the use of the Court House in which to hold the Convention, and to the retiring County Chairman, I. Bower, for his labor during the past year.

Hall's Hair Renewer contains the natural food and color-matter for the hair, and medicinal herbs for the scalp, curing grayness, baldness, dandruff, and scalp sores.

## USELESS RETURNS OF CONSTABLES.

As usual all the constables came into the court this morning to make it known that there had been no violations in their districts since the last term of court. This thing will keep up until the next session of the legislature, but after that there should be an end of it. This county and every other county in the state is forced to pay this useless expense for constable returns at every session of criminal court. If constables have some law violation to report it would not be out of place for them to come to court and report it, and if they were only required to come to court when they had something to report there would be more lawless acts reported by constables.— *Williamsport Republican.*

There is a good deal of sense in the above. It is very seldom that anybody is prosecuted in this county on a return made by a constable. Occasionally a report is made that a road is out of order, and the supervisors are directed to repair it and that is the end of it. What is the use of paying the expense for bringing forty constables to the county seat four times a year to report that they have nothing to say.

The Lackawanna Democratic county convention has made the following nominations: For President Judge, Hon. P. P. Smith; County Commissioners, John Demuth, of Scranton, and James Russell, of Fell township; County Auditors, Joseph A. Dolphin, of Olyphant, and S. S. Spruks, of Scranton.

## BOLD TRAIN ROBBERS.

**They Shoot an Engineer, Blow Up an Express Car and Make a Big Haul.**

CHICAGO, Sep. 13.—Train robbers stopped the Atlantic express train on the Lake Shore road at Kessler, Ind., early yesterday morning, shot the engineer, James Knapp, wounding him severely; broke into the express car, blew open the United States company's safe, and took its contents, consisting of four packages. The express officials are reticent on the question of the amount of money secured by the robbers, but it can positively be stated that the total value was $19,104.60.

The number of highwaymen was estimated by some of the trainmen at twenty, but there were probably not half so many. The passengers on the train were not molested.

Nearly 100 detectives are hunting for the robbers, and a reward of $1,000 has been offered for their capture.

## LIZZIE HALLIDAY'S LATEST SCHEME

**Trying to Fasten Her Crimes Upon Two Unknown Men.**

MONTICELLO, N. Y., Sep. 13.—It is believed by many that Mrs. Halliday is trying to throw the mantle of guilt from her shoulders to that of two men whose identity she will not disclose, but one of whom she says is an Irishman. Each day brings a little more of her story from her lips. She has said that two men came to the house and also a woman. One man endeavored to get her to leave the house with him, but she refused, and he threw her on the bed, hit her over the head and chloroformed her. One of the men had a pocket bag, she said, which may refer to the shoplifters' bag found on herself. She is endeavoring to give her hearers the idea that she is menaced with evil spirits in the shape of men who threatened her with terrible evils if she tells her story. When she eats she appears to see a large woman with a big mouth who is trying to harm her. The fear of her uncanny visitors grows less day by day and she adds more to her story. Sheriff Bucher has no difficulty now in getting her to eat. She cannot be made to touch bread or potatoes. No visitors have been allowed to gaze on the prisoner but on several occasions when she heard the sound of footsteps or voices she cried out "Take them away."

MIDDLETOWN, Sept. 7.—The double murder at Burlingham has been as thoroughly investigated as possible at this time. The victims are Margaret McQuillan, wife of Thomas McQuillan, and their daughter Sarah, all of the town of Newburgh, Orange county.

MIDDLETOWN, N. Y., Sep. 8.—The chief event of yesterday was the finding of Paul Halliday's body beneath the floor of the house where the two Newburgh women, Margaret McQuillan and her daughter Sarah, were murdered. This makes three persons Mrs. Halliday stands charged with murdering within four days. Constable Scott reports that Mrs. Halliday tore her garter loose, broke it and twisted it around her neck, and pulled on both ends with all her strength. He removed it from her as soon as he discovered what she was attempting to do but her face was badly flushed and she was panting for breath. She has been watched very closely ever since.

A band of gypsies were encamped near Burlingham last summer who recently passed over the mountain. Wednesday night several of the band were in McCune's store at Wurtzboro, discussing the murders. One was overheard to remark: "If we get the woman, we must get her tomorrow night."

An autopsy developed three bullet wounds in Halliday's body. He had also been struck on the head, causing a contusion of the left temple. The left eye had been knocked out. Medical experts say the man has been dead a week or longer. The G. A. R. Post will bury their old comrade.

There was great fear that a mob would form and lynch Mrs. Halliday last night.

## SOPHOMORES SUSPENDED.

**Lafayette College Determined to Break Up Hazing.**

EASTON, Pa., Sep. 13.—Three sophomores of Lafayette College were suspended indefinitely for hazing. It is said others will follow. The college term opened Thursday but a number of old students and some freshmen came last week. The "sophs" hazed the freshmen by trying to smoke them out. The faculty is determined to break up hazing and is acting vigorously in the matter.

### Bold Swindler.

SAN FRANCISCO, Sep. 13.—F. W. Smith, representing himself as a special agent of the United States Treasury, a nephew of Senator Voorhees and a son of an influential New York politician, opened an expensive office here, telling the janitor that he would pay the rent when his vouchers from Washington arrived. He had the janitor go security for fine furniture, engaged clerks and gave large orders on a number of stationery houses. He has fled, leaving numerous creditors.

### Cordage.

NEW YORK, Sep. 13.—The incorporation of L. Waterbury & Company (Limited) is the beginning of the end for the National Cordage Company, which failed in May last and wrecked so many persons. The new company will be known as the United Cordage Company, and will start out with $4,000,000 in cash in the treasury for a working capital. James M. Waterbury will be made president of the new concern, as he was of the old trust.

### New Appointments.

WASHINGTON, Sep. 12.—The President has sent to the Senate the following appointments:

Chas. M. J. Taylor, of Kansas, United States Minister to Bolivia.

James Butchner, of New Jersey, Collector of Internal Revenue for the First District of New Jersey.

Charles B. Aycook, United States Attorney for the Eastern District of North Carolina.

### Passed the Dividend.

PHILADELPHIA, Sep. 13.—The Board of Directors of the Lehigh Valley Railroad elected Henry S. Drinker, general solicitor of the company, and Beaukeau Borie as directors to respectively succeed Dr. R. A. Lamberton, deceased, and Geo. C. Thomas, resigned. The board passed the payment of the quarterly dividend.

### Stevenson's New Stick.

WASHINGTON, Sep. 12.—Vice-President Stevenson is the recipient of a cane made from wood which was used in building a house for Gov. Bond, the first executive of the State of Illinois.

## A BICYCLE ORDINANCE.

The City council of Wilkesbarre is considering the adoption of an ordinance concerning the use of bicycles. The following are some of the provisions that would be useful in Bloomsburg.

Section 1. That the following are hereby declared to be nuisances:

1. Riding a bicycle or tricycle upon or through any of the public highways of the city at a greater speed than ten miles an hour.

2. Riding a bicycle or tricycle on highway of the city without having attached to the handle thereof a gong or bell or carrying a whistle that may be distinctly heard at a distance of thirty yards.

3. Riding a bicycle or tricycle after dark without having attached thereto a lighted lamp.

4. Riding more than three machines abreast, except upon permit from the mayor.

5. Failure to ring the bell or gong or blow your whistle when necessary to warn persons of the approach of a bicycle or tricycle.

6. Riding crosswise or curving to and fro on any public highway or riding without having control of the machine.

7. Riding a bicycle or tricycle on any sidewalk in this city on any street paved with asphalt.

8. Riding a bicycle or tricycle on any sidewalk in the city at a greater speed than six miles an hour.

8. Any person or persons violating any of the provisions of this ordinance shall pay a penalty of not less than $2 nor more than $25, to be collected as other fines are now by law recoverable.

### Crusade Against Fish Dams.

Fish Commissioner Ebel has begun an extensive crusade against illegal fishers along the Susquehanna river from its headwaters in Clinton county to the Maryland state line. Notices have been issued by Commissioner Ebel to the sheriffs of all the counties bordering on the river between these points to destroy all fish dams and all other illegal contrivances for fishing. Responses have been received from all the sheriffs and an organized crusade is now being made.

John Noriconk, sheriff of Northumberland county, with several deputies, began tearing out the illegal fishing contrivances at the Shamokin dam, and will work their way down the river as far as the county line. The sheriff of Dauphin county, with the assistance of a number of deputies will begin at a point where the Mahantongo creek empties into the river and destroy all the fish dams from that point to Buck Lock. Sheriff Sides, of Lancaster county, will begin at that point and remove the dams, &c. along the river to the Maryland state line.

Commissioner Ebel says he is determined to stop illegal fishing and is leaving nothing undone to accomplish his purpose.

DONE AT THE
COLUMBIAN OFFICE.

The most striking object in every sense exhibited in the Transportation Building at the World's Fair is the reproduction of the famous 125-ton hammer in the works of the Bethlehem Iron Company, at Bethlehem, Pa. It is of wood, and, as in the case of the somewhat smaller hammer shown by Schneider at Paris, in 1878, the delusion is perfect. But whereas in Paris the Creusot model stood outside the pavilion with which it was associated, and was dwarfed by the surrounding buildings, the Bethlehem hammer is placed inside the Transportation Building, and dwarfs everything around it. The height of the exhibit is 90 feet; its breadth, 38 feet, and the gap in the frame of the hammer spans the central aisle of the building.

The hammer is rated at 125 tons, that being the combined weight of piston, piston rod and tup. It is single acting, the diameter of the steam cylinder being 76 inches, while the stroke is 16 feet 4 inches, which can be increased to nearly 20 feet. The working pressure is 120 pounds. It is estimated that the weight of metal in the anvil blocks is 2150 tons, making the total weight of this huge piece of machinery 2386.

### The Sullivan County Fair.

The only agricultural fair in Sullivan county is held at Forksville, and this fall will be on October 3, 4 and 5. The village of Forksville is one of the prettiest in Pennsylvania and has first class accommodations for the public. The fair grounds are beautifully situated, the buildings new and the management as near perfection as long experience can accomplish. The exhibition of fruit, vegetables, grain, cattle, sheep and draft horses is unsurpassed in quality in the state. Being strictly agricultural but little attention is paid to fast horses, although a fine track has been constructed for the convenience of those who desire to develop or show off the speedy qualities of their favorite animals, and this year several very good races are arranged for the second and third days.

An effort is being made to form a permanent democratic organization in Bloomsburg and rent a room for stated meetings. With the increased population, and the growing democratic vote, a permanent society should be formed in this town. While there is little to attract the attention this fall, next year will be the election of a Governor of this state, and members of the Legislature.

Elegant ties for 15c. at Lowenberg's.

Business prospects are improving. The proper way to set the wheels of trade in motion is to advertise in the newspapers. Money invested in advertising schemes of itinerant agents might as well be burned up. Five dollars paid for a card on a so called bulletin hung up in not more than a half dozen places will pay for the same card for at least a month in a newspaper that is read every week by five thousand people.

Harvest Home services will be held as follows: On Sunday, September 17, at St James, at 10:15 A. M., Zion, 2:15 P. M., and Orangeville, 1:30 P. M., and on Sunday, September 24, at Hidlay, at 1:30 A M, and Briarcreek 2:30 P. M. The churches will be suitably decorated, special music rendered, and an appropriate address delivered. All are invited to join with us in the celebration of God's goodness in the harvest. A. Houtz, Pastor.

A meeting of the Young Men's Democratic Club was held last Thursday evening, September 7th, in Wintersteen's Hall. The officers for the ensuing year were elected as follows: W. B. Taylor, president; G. F. Quick, Secretary; Louis Lowenberg, treasurer. The following were elected delegates to the State Convention of Democratic Societies to be held at Allentown, September 22d: M. Ellenbogan, J. H Mercer, W. B. Taylor, and T. B. Hanly.

If there be organized a Law and Order Society in this town, no better service can be rendered the community than by making an example of a few of the men and boys who stand along the street corners in the evening and use vulgar and profane language in the hearing of ladies and children passing by. The law imposes a fine for every oath uttered, and the offender can be arrested, taken before a magistrate, and a penalty imposed. A lady cannot walk a half a square on Main street after dark without having her ears offended by profanity or worse. The suppression of this would be far more creditable than the suppression of the sale of Sunday newspapers.

Zachariah Moore met with a serious accident Thursday of last week, at about six o'clock. He was in the act of coupling cars when he was caught and his left arm crushed at the elbow. Dr. Gardner was summoned and after making a careful examination, stated that the arm must be severed to save his life. It was found that the bones were completely crushed, some being forced through the flesh. Amputation was made above the elbow. For several days his life hung in the balance, with only a possible chance of getting well. There was every indication of blood poison, with a tendency to lock-jaw. Tuesday a favorable change was made, with the prospect of a speedy recovery.

The repairs at the Lutheran church are progressing as rapidly as can be expected. Upon the left side of pulpit is arranged an elevation for an organ and the choir—three steps lead up. Upon the right side the seats are re-arranged and an additional one placed to accommodate the audience. There will also be one additional seat across the church in front. The rear where the present organ stands will be supplied with benches that will give much more seating capacity. The old windows are being removed and colored glass supplied. The heavy wood casings are taken off, a copper netting will be placed in the corner from edge of the window to the side wall, and finished with plaster. A new carpet will cover the floor, the seats all to be cushioned and the walls beautified with new paper and paint.

## THE WHITE HOUSE BABY.

### Congratulations Continue to Pour in Upon the Clevelands.

WASHINGTON, Sep. 12.—The White House baby is doing well and so is Mrs. Cleveland. Mrs. Perrine is now with her daughter and will remain until she is able to be up and about. The President pursued his regular routine in his office yesterday. According to his custom on Mondays he saw no visitors except some Cabinet officers, but devoted himself to almost uninterrupted work at his desk. Telegrams and letters are still being delivered at the White House from people in all parts of the country congratulating the President and Mrs. Cleveland on the new accession to their family. No messages from foreign countries have yet come to hand, but several are expected by mail in due course of time. Bunches of flowers from intimate friends of the Cleveland family have been received at the White House in great numbers and many people of prominence, particularly those in diplomatic circles, have left their cards.

## WORLD'S FAIR EXCURSIONS.

### Eighty Thousand Passengers Carried on Special Trains.

NEW YORK, Sep. 12.—The World's Fair trains will be continued until Oct. 28. Since the Trunk lines started these special trains, some six weeks ago, charging one fare for the round trip to Chicago, they have carried 80,000 passengers. Beginning next week six trains instead of eight will be run weekly. The business of the Trunk lines to Chicago in July and August was five times as great as in the same months last year and the business in August was 30 per cent. greater than in July.

### Indians Must Not Smuggle.

WASHINGTON, Sep. 12.—The Treasury Department has instructed the Collector of Customs at Detroit, Mich., to refuse free entry to goods in a greater amount than $100, in the possession of Indians passing to the United States from Canada. This action is taken to prevent smuggling goods for merchants and others.

### Full Time and Full Pay.

NORWICH, N. Y., Sep. 12.—The large silk mills of the Norwich Silk Manufacturing Company, and the extensive works of the Norwich Cabinet Company, have resumed work on full time. The old scale of prices is maintained and all the old hands were re-employed.

### Cornering Wentworth.

NEW YORK, Sep. 12—The grand jury filed their indictment against W. H. Wentworth, the absconding cashier of the Victoria Hotel. As soon as Wentworth is extradited from Jersey City he will be brought before Judge Fitzgerald to plead.

### Terre Haute Affairs.

NEW YORK, Sep. 12.—Word was received at the office in this city of the Evansville and Terre Haute railroad that President Grammer had resigned, by request of the directors. He will be succeeded, it is said, by D. J. Mackey, President of the Board of Directors.

### Ships Going to Rio.

WASHINGTON, Sep. 12.—The Navy Department has directed the commander of the Detroit to sail from Norfolk for Rio on Thursday, and it is not unlikely that the Newark will be ready to sail in company with her.

### Fish's Funeral.

GARRISON, Sep. 13.—The funeral of ex-Secretary of State Hamilton Fish, took place yesterday. A very large number of people, including the Society of the Cincinnati, were present.

## The Darling Toreador.

### A BULL-FIGHTER CHEERED AS A HERO AT HIS FAREWELL APPEARANCE.

It is refreshing to read the spirited accounts of the ceremonies attending the recent retirement to private life of Lagartijo, the king of Spanish bull-fighters. Romance and chivalry have not gone out of a time that lifts up its voice in proud acclaim of such prowess and daring as Lagartijo's. Nor has he had only empty plaudits for reward of his might and nerve. Fifteen thousand persons attended his last public appearance in the bull ring at Madrid, a few days ago, and Lagartijo's share of the proceeds of the exhibition was a small fortune. The darling toreador on this occasion killed six as fierce bulls as ever bellowed, and when he turned to make his farewell bow to the exultant audience he was cheered and hailed as a hero, a king, a demi-god.

He has wearied at last of the intoxicating glories of his calling. He has had a surfeit of gore, and love, and money, all of which have fallen in abundance to this greatest of modern gladiators. Lagartijo withdraws now to his magnificent estate at Cordova to live in the ease and luxury of a fortune of millions that, despite his extravagance and generosity, remains from his vast earnings in the arena.

Bullfighting is a sport cruel and brutal; but it is likewise a diversion splendid in all its circumstance, exciting, exhilarating, exquisitely impressive. No one of nerves and blood can view one of these tremendous contests between a man and beast, each in the pink of physical perfection, without feeling a thrill of wild intoxication. It is not surprising that one who fought the bull so fairly and so victoriously as did Lagartijo should be to his countrymen an object of enthusiasm and worship.

I have been a great sufferer from dry catarrh for many years, and I tried many remedies, but none did me so much benefit as Ely's Cream Balm. It completely cured me. M. J. Lally, 39 Woodward Ave., Boston Highlands, Mass.

After using Ely's Cream Balm two months I was surprised to find that the right nostril, which was closed for over twenty years, was open and free as the other, and can use it now as I could not do for many years. I feel very thankful.—R. H. Cressengham, 275 18th St., Brooklyn.

## Suggestions Contained in the Popular Summer Guide Book of the Pennsylvania Railroad Company.

Complimented by the press and indorsed by tourists and practical travelers, the Summer Excursion book of the Pennsylvania Railroad Company of this year's issue has become, in consequence of these recommendations and its own real worth, a most highly-prized compilation. The many and diversified routes, including every road of prominence within the great summer belt of Eastern United States, offer those contemplating an early fall trip an opportunity of choosing new and interesting means of reaching their destinations. A list of hotels is appended to each resort, which it is self-evident adds materially to the value.

The month of September being probably the finest month in the year in which to travel, an increased demand for this graphic production has become noticeable, and that all may avail themselves of the manifold advantage to be derived from an inspection of its plain and concise yet elegant and complete descriptions of a thousand places within a radius of a thousand miles, the Pennsylvania Railroad Company's Passenger Department will mail the book mentioned to any address upon receipt of 20 cents in stamps. A nominal sum merely, with cost of postage added. Copies may also be obtained from Ticket agents of the Company.

*A Mother's Letter:*—

"Dear Mrs. Pinkham:—

"Last winter I did not think my little ones would have a mother long. I suffered terribly with female troubles.

"I could keep nothing on my stomach, and got so 'poor' my friends hardly knew me. I suffered with severe headaches, dizziness, faintness, backache, and 'the blues.'

"Thanks to *Lydia E. Pinkham's Vegetable Compound*, I am now as fat as ever, and have no female troubles.

"If you use my letter I hope it may be the means of saving some other poor mother's life as it did mine."—Mrs. Ella Van Buren, Brazil, Ind.

### He Won't Be Exiled.

Mouldy Mike—By all th' saints, has yer lost yer mind? Wot you carryin' that saw fer?

Ragged Robert—It's all right. I stop at houses and offer to saw some wood for me dinner.

"You'll be expelled from the Travelin' Gentlemen's union."

"No, I won't. After dinner I tell 'em I can't work till I file me saw. They lend me a file and tell me to go way off where they won't hear me filin'. Most any saloon will give a drink fer a good file."—N. Y. Weekly.

### The Missing Link.

The hand organ has often been voted a nuisance, but never before, probably, for the reason that it set up too high a standard.

Edith had been to church for the first time.

"And what did you think of it?" asked her mother.

"I didn't like the organ very well."

"Why not?"

"'Tause there wasn't any monkey with it."—Harvard Lampoon.

### Simple.

President Life Insurance Company—Make a note to fire the young man who has charge of sending floral pillows to the funerals of deceased policy holders.

Secretary—What has he done?

President—Sent one inscribed: "His gain is our loss."—Truth.

### Willing to Oblige.

Guard—Fraulein, get in quick, please! The train is just going to start!

Young Lady—But I want to give my sister a kiss.

Guard—Get in, get in; I'll see to that. —Frauenzeitung.

### No Use for Matrimony.

Uncle Geoffrey—What's this, I hear, Bertie, about the engagement between you and Ethel being broken off? I thought that was a settled thing.

Bertie (aged seven)—Yes, Uncle Geoffrey, I have decided to become a bachelor like you. See what a good time you have, with your horses and your club, while papa has to buy me three pairs of shoes a month, and has a wife who nags him besides.—Judge.

### Will Be a Hit.

Simmons—What are you working on now, Timmins?

Timmins—I am writing a detective story.

Simmons—I thought that field had been worked to death.

Timmins—But this is a realistic story. The detective does not detect anything.—Indianapolis Journal.

### Euphemism.

The Gentleman from Texas—Twizzles is a liar!

The Gentleman from Boston—On mature reflection would you not prefer to make the intimation that Twizzles is one—ahem—who has been led to embrace the doctrine—er—that fiction has in it a higher end than fact?—Chicago Tribune.

### Partial Information.

Little Boy—Every time I tie my shoe laces they slip. I wish you'd tie them in a pine knot for me.

Grandpa—What sort of a knot is that?

Little Boy—I don't know, but I've heard it's tough.—Good News.

### Molding Public Sentiment.

Wife—John, your hair is coming out at a terrible rate.

Husband—I know it, my dear. I must do something for it at once.

Wife—I wish you would, John, for my sake. You know how people will talk.—Texas Siftings.

### Would Make a Lamp Smoke.

## A COSTLY EXPERIMENT.

The remodeling of the Lutheran Church, and purchase of a new organ reveals a costly experiment with a cheap pipe organ. About ten years ago the church decided upon the purchase of a new organ, and soon had for trial a large pipe organ costing about seven hundred dollars. Experienced organists in this and neighboring towns were invited to test the organ, but not one of them would risk his reputation to take a decided stand recommending its purchase. After repeated efforts the organ was finally put in tune, and the congregation called upon to vote for or against its purchase. A lively discussion followed, and after some opposition a majority vote decided on its purchase. Frequent repairs were made upon it until about two years ago it was finally abandoned and a reed organ rented. At a congregational meeting a few weeks ago, by a decided vote it was agreed to remove the organ and get some other style. The building committee entered into correspondence with the maker of the organ, and failing to get any satisfactory terms for repairing it, a proposition was made and accepted by him by which the church received a reed organ listed at $190. The committee then interviewed a home dealer in organs, and made a contract for an Estey organ by trading the new reed organ and giving $200 in cash. The congregation lost by the experiment fully seven hundred dollars. No blame should be attached to any individual outside of the maker for the failure of the pipe organ. If the instrument had proven a good one, it would have been very cheap at the price paid. But unfortunately it was so constructed that it became worthless in a few years time. A pipe organ is a very delicate instrument, and those who purchase should bear in mind that this is one of the cases where the best is sure to be the cheapest in the end.

## Danville Fair.

The Montour County Agricultural Society will hold their Fair this year at Danville, Pa., on September 27, 28 and 29. It promises to be the best one held during the existence of the Society. The managers have erected new buildings and put in complete repair the grounds and old buildings, and have all the necessary conveniences for the accommodation of visitors. No charges will be made this year for admission of venicles. Every person should attend, all are welcome.

## Buckwheat.

The season is here for grinding and we are ready. Our mill has been renovated and remodelled and our old miller, Mr. Nelson Freas, whom everybody knows to be one of the best buckwheat millers in the state, will be in charge again, thus guaranteeing satisfaction to the farmer who gets grinding done and to the dealer who buys flour. Bring in your grain and try "White's Best Buckwheat Flour." H. V. White & Co. Sept 15, 2t.

DR. KILMER'S

# SWAMP-ROOT

## CURED ME.

GRAVEL! GRAVEL! GRAVEL!

LARGE AS A GOOSE EGG.

Dr. Kilmer & Co., Binghamton, N. Y.

Gentlemen:—"I was under the care of different physicians for nearly two years; tried every doctor in our town continued to suffer and decline until I was a physical wreck.

The most learned physicians made examinations and pronounced my case one of Gravel or Stone in the Bladder, and said that I would never be any better until it was removed by a surgical operation. Oh! I thought what next? Every one felt sad; I myself, gave up, as an operation seemed to us all certain death. I shall never forget how timely the good news of your SWAMP-ROOT reached me. I send you by this same mail a sample of the stone or gravel that was dissolved and expelled by the use of your SWAMP-ROOT. It must have been as large as a good sized goose egg. I am feeling as well to-day as I ever did. I kept right on using SWAMP-ROOT, and it saved my life. If any one doubts my statement I will furnish proof." LABORNE BOWERSMITH, Dec. 20th, 1892. Marysville, Ohio.

## Dropsical Swelling, Cold as Ice.

"Swamp-Root" saved my life after I had suffered everything but death. I send you my photograph and this description of my case and you can use it if you wish. My hands were as cold as ice; fire would not warm them. Dropsical swellings of the lower limbs; I could not button my shoes. Exertion completely exhausted me; death seemed so very near. The swellings have gone and all my troubles have disappeared. My health is better now than it has been for years. "SWAMP-ROOT" made the cure. Tell doubting ones to write me I will tell them all about it." MRS. R. J. CUTSINGER, Jan. 15, 1893. Marietta, Shelby Co., Ind.

## They Destroy Malaria.

People who are unfortunate enough to live in damp houses, particularly near undrained land, are apt to think that there is no help for them save in removal. They are mistaken. Successful experiments have shown that it is quite posible to materially improve the atmosphere in such neighborhoods in a very simple manner—by the planting of laurel and the sunflower. The laurel gives off an abundance of ozone, while the "soulful-eyed" sunflower is potent in destroying the malarial condition. These two, planted on the most restricted scale in a garden close to the house, will be found to speedily increase the dryness and salubrity of the atmosphere, and rheumatism, if it does not entirely become a memory of the past, will be largely alleviated.

## His Offspring

"My pigmy counterpart,"
the poet wrote
Of his dear child, the
darling of his heart;
Then longed to clutch the
stupid printer's throat
That set it up—
"My pig my counterpart.

AYER'S SARSAPARILLA

S. P. SMITH, of Towanda, Pa., whose constitution was completely broken down, is cured by Ayer's Sarsaparilla. He writes:

"For eight years, I was, most of the time, a great sufferer from constipation, kidney trouble, and indigestion, so that my constitution seemed to be completely broken down. I was induced to try Ayer's Sarsaparilla, and took nearly seven bottles, with such excellent results that my stomach, bowels, and kidneys are in perfect condition, and, in all their functions, as regular as clock-work. At the time I began taking Ayer's Sarsaparilla, my weight was only 129 pounds; I now can brag of 159 pounds, and was never in so good health. If you could see me before and after using, you would want me for a traveling advertisement. I believe this preparation of Sarsaparilla to be the best in the market to-day."
